DATTATRI PATIL

Bengaluru, Karnataka | dattatridattu1@gmail.com | +91-8971354461

PROFILE SUMMARY

Final-year B.E. (AI & ML) student with strong CS fundamentals (DSA, OOP, DBMS, Networks) and hands-on experience building full-stack, LLM-powered applications end-to-end: React Native/TypeScript front end, FastAPI and Supabase/PostgreSQL back end, and agentic AI features using LLM APIs. Quick learner who works independently and ships working products.

EDUCATION

Course	Institute	University / Board	Year	Score	Type
B.E. (AI & ML)	SJB Institute of Technology, Bengaluru	Visvesvaraya Technological University (VTU)	2023 - 2027	CGPA: 7.56	Full-time
12th (PU)	Shri Chaitanya PU College, Hyderabad	Telangana State Board of Intermediate Education	2021 - 2023	94.1%	Full-time
10th (SSLC)	Sri Veerabhadreshwara High School, Nittur(B)	Karnataka Secondary Education Board (SSLC)	2021	96.8%	Full-time

TECHNICAL SKILLS

Languages: Python, Java, SQL, TypeScript, JavaScript
Generative AI / LLM: LLM API integration (Groq LLaMA 3), agentic workflows, tool-calling, prompt engineering, OCR, CNN-based image recognition
Front End: React Native, Expo, TypeScript, JavaScript, HTML5, CSS3
Back End & APIs: FastAPI, RESTful API design, Supabase (Auth, PostgreSQL), MongoDB
Tools: Git, GitHub, Docker
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Machine Learning

PROJECTS

Real-Time Nutritional Analysis for Packaged and Unpackaged Foods (ongoing) **Final-Year Project**
React Native, Expo, TypeScript, FastAPI, Supabase, PostgreSQL, Groq LLaMA 3, Google Vision API, CNN, OCR

- Built a full-stack, agentic AI mobile app that identifies packaged and unpackaged foods and analyzes calories, protein, fat and carbohydrates.
- Integrated an LLM-powered nutrition assistant (Groq LLaMA 3) with tool-calling over user nutrition data, goals and food history, plus BMI calculator and goal tracking.
- Implemented CNN-based food recognition (Food-101, Indian food, custom datasets), barcode scanning and OCR-based nutrition-label extraction.
- Designed and built RESTful back-end services and the Supabase/PostgreSQL schema for authentication, sessions, food records and history, synced with the React Native client.
- Developed responsive TypeScript UI screens: nutrition dashboard, food history, camera scanning and progress tracking.
- Shipped AI features: health-condition food warnings, cooking-method nutrition adjuster, Indian food-swap suggester, weekly report card, family multi-profile mode.

Pratham Chikitse — Emergency First-Aid Android App
Kotlin, Jetpack Compose, Gemini AI

- Built an Android app delivering AI-assisted emergency first-aid guidance using the Gemini API with a Jetpack Compose UI.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle University (Oct 2025)
- NPTEL: Cloud Computing — IIT Kharagpur
